Poincare's Plan Told**French Program is Outlined****German Newspaper Asserts Six Concessions Are to be Demanded****Three Years' Respite Would be Granted Nation if Terms Are Met**

BY CABLE AND ASSOCIATED PRESS
HAMBURG, Dec. 1.—The program of M. Poincare, the French Premier, for submission to the Brussels conference comprises six definite measures of allied control to be accepted by Germany in return for a three-year moratorium, according to information in the *Fremdenblatt* asserts a telegraph received from a Dutch banker who is prominently associated with high financial circles in France.

The newspaper says its informant states that the plan already has been submitted to the French government. The six proposals to a moratorium are said to be:

- 1. The creation of a customs union of the occupied zone with the establishment of a customs commission, and on the number of troops and other officials in the occupied area, participation by Allied

LET UNCLE SAM DO IT, ALLIES' HAPPY THOUGHT**Will Permit Us to Feed 1,100,000 Near East Refugees; Greece Wants Bars Down**BY HENRY WALES
(EXCLUSIVE DISPATCH)

LAUSANNE, Dec. 1.—The creation of 1,100,000 more refugees in the Near East for the United States to feed, support and transport, was suggested by the League of Nations and agreed on in principle by the territorial committee of the conference today. The huge masses of civil population in Constantinople, Anatolia and Western Thrace will forcibly be moved to Turkey and Greece, according to a plan of Dr. Fridtjof Nansen, the League's commissioner, who just has returned from the Near East.

M. Venizelos lost no time in telling the conference that the United States will be expected to revise its immigration laws to admit an enormous quota of Greeks to the country, as there is no place for them in Greece. He also asserted that an appeal must be made to America particularly to raise the necessary funds, charter ships, provide food and clothing for the refugees and install and support them in their destination until they are made self-supporting.

MUST CHARTER SHIPS
Dr. Nansen's plan does not include the cost for the exchange of the civil population, nor does the League, which Dr. Nansen represents, possess a war chest, and therefore is unable to make any appreciable contribution. The plan even provides that Greek and British ships should be chartered with American money to transport these refugees to America.

The plan looks too much like British domination of the straits to suit the other powers, particularly France and Italy, who feel

EXECUTIONS JUSTIFIED**Story of Greek Debacle Told**

BY VENIZELOS' AID Declares Ministers Betrayed Their Country

Men Suffered Only After Fair Trial Ordered by Deceived People

BY CABLE AND ASSOCIATED PRESS
LAUSANNE, Dec. 1.—M. Venizelos, the former Greek Premier, receiving the correspondent of the Associated Press today, declined to comment on the Athens executions, but Gen. Manousakis, who represented Greece at the Medeska conference, declared in an interview that the Greek ministers were put to death because they were found guilty, after a fair trial or criminal betrayal of the Greek nation.

Gen. Manousakis was recently recalled from Athens by Venizelos as a military expert to advise him on technical subjects during the League conference.

He is chief of staff of the Greek army in Thrace and may be said to represent the opinions of the Greek revolution, if not those of Venizelos himself.

VENIZELOS' STATEMENT
When asked for his views, Venizelos said:

"I am finally and definitely out of Gracian politics. I am doing what I can to help my country abroad in this great crisis in which we are plunged, but it is not for me to decide in home affairs."

The Greek committee, in this eventuality, is likely to send the Ismet Pasha let drop the report today that he doubted if Greece would be strong enough to sit in the peace conference.

There is a movement to adjourn the conference, but the report that Ambassador Child, here as an American observer, suggested it be absolutely denied.

GREEKS ARE THREATENED BY BULGARS**Will Have Corridor to Sea by Force if Necessary, Says Stambolov**

BY CABLE AND ASSOCIATED PRESS

LAUSANNE, Dec. 1.—Grave developments in the Balkans are foreshadowed by a statement made to the Vienna press today by Premier Stambolov of Bulgaria.

"Greece is in process of disintegration. If Greece will not give us full possession of a corridor to the Dardanelles outlet, we must get it by force if necessary."

Premier Stambolov declared Bulgaria would not join any Balkan bloc against Turkey and would support the Turks if given free use of the straits and a free port in the Dardanelles.

The Greek committee, in this eventuality, is likely to send the Ismet Pasha let drop the report today that he doubted if Greece would be strong enough to sit in the peace conference.

There is a movement to adjourn the conference, but the report that Ambassador Child, here as an American observer, suggested it be absolutely denied.

BRIDE SHOT; POLICE HUNT HER HUSBAND

Girl of Nineteen Trying to Shield Spouse, Belief, in Mysterious Shooting

BY A. P. NIGHT WIRE

THE mystery surrounding the shooting last night of Mrs. Marie Voite, 15-year-old bride of 1323 East Forty-second street, will be cleared up, the police believe, when they have found Joe Voite. He is said to have disappeared immediately after the shooting and a search for him has been started.

The police say the wounded girl is trying to shield her husband. She admits that he was with her when she was shot, but denies that he shot her. According to her story, the two of them had left her former home at 2311 Houston street and left on foot. As they were walking, she said she heard a shot and then realized she was wounded.

J. F. Danskin, 1411 East Forty-third street, found the wounded girl lying on the front porch at about 10 p.m. He told the police he had previously heard the shot and a scream for help. Mrs. Voite told him that she had fallen down and injured her face. When he pulled her coat away from her head he saw the bullet wound and summoned a police ambulance.

Surgeons at the Receiving Hospital found that the bullet had passed through the right upper jaw. They stated it was not a fatal wound.

Mrs. Voite, whose middle name was Salo, told the police she had been married on November 19 to Joe Voite, who she said was employed by the Kress House Moving Company. Detectives Duffy, McDonald and Guthrie are investigating the case.

Chicago jurist, at request of sister-in-law of much married Prof. John P. Tiernan, ordered educator held for sanity test.

GENERAL EASTERN. Hip Sing Tong leader was captured, a large quantity of arms, ammunition and opium seized in a raid to prevent tong war in New York.

St. Louis, bedecked with French and American colors, welcomed George Clemenceau, "tiger" of France.

Chicago jurist, at request of sister-in-law of much married Prof. John P. Tiernan, ordered educator held for sanity test.

WASHINGTON. Japan argued with China in withdrawal of forces from Shantung on the 5th inst. Japanese embassy announced.

President Harding was confident of meeting no serious Senate opposition to the passage of the ship subsidy bill.

Major Clegg visitor in Washington behalf of Monroe Doctrine centenary to be celebrated in Los Angeles next year.

COMMUNISM ON ITS LAST LEGS

Russia Recovering, Hoover Tells Bay City

Reorganized Country May Rise on Ruins

Abs Colorado Development to Save Valley

BY A. P. NIGHT WIRE
SAN FRANCISCO, Dec. 1.—Russia, today is fast on the road to recovery, Secretary of Commerce Herbert Hoover told the San Francisco Chamber of Commerce's women's organization this afternoon. "Communism has failed and its leaders know it," he declared. "There is indeed a reason why we will see a new Russia revived and a new Russia based on a sound economic system."

"Russia now has a spirit of hope that could come from no quarter but America," he added after having reviewed the accomplishments in that country by American visitors to the Soviet Union. "Russia received its most staggering blow when drought all but wiped out its crops and production dwindled at an alarming rate. It was then that Communist leaders realized the total failure of Communism."

Hoover, however, described how American developed resources of \$25,000,000 to assist Russia and established more than 200 stations to distribute food to millions of needy Russians.

FRIENDSHIP FOUNDATION

"We gave what two battalions would cost us," pointed out "and have laid the foundation of a friendship that will last longer than any number of battalions. America has attained a name in Russia that will endure. The A.R.A.—American Relief Association—known to all Russia as 'Ara,' is the name the Americans have given to the Russian children. And Russia has come to know America as the great world nurse who comes to them when they are in great distress."

The Secretary asserted that America's priorities are not in the direction of production. "Our trouble," he said, "lies mainly in providing a system properly to care for division and distribution. However, we can solve this problem within our own social system, the continuity of production is the standard of our life."

By better service in our communities we can improve the sharing of that product. There never was an outpouring of service in history as great as America displayed during the war."

ARMY LIMIT REACHED

There is little likelihood of further reductions in the numerical strength of the United States Army, Secretary Hoover told the Commercial Club in an address reviewing major Federal activities.

"We are the only nation in the world today whose policemen on the streets outnumber the nation's Army," he told members of the Commercial Club in reviewing major Federal activities.

POINCARE PLAN IS REVEALED

(Continued from First Page)

capital in all chemical and metallurgical factories in the occupied areas, having more than 500 employees, to the extent if not less than 45 per cent and not exceeding 75 percent.

Third, stabilization of the mark through an international loan secured by the Reichsbank's gold reserve.

Sixth, an increase in coal deliveries of 25 per cent and an increase in reparations wood deliveries of 20 per cent.

According to information received by the French delegation, the German government objected that the amount of the custom's income was doubtful while the cost of the allied control organization would be great, and also that the proposed boundary would be harmful to the trade of the western powers and especially aid foreign intervention.

The Belgian newspaper adds: "The internal financial situation of the country responsible for our national situation?"

ACCUSATIONS PROVED

"These accusations were all proved at the conference, and all the death sentences had been carried out 1500 officers threatened to invade the prisons and themselves see that justice was accomplished. A majority of the officers who sat in the continental committee were prominent Venetians, and the death decision, however harsh, was based on irrefutable evidence."

Gen. Manzakis sketched the entire history of the ill-fated Asia Minor campaign showing how the Allied Supreme Council had given the Greeks a mandate to occupy strategic points after the armistice signed at Mudros. He expressed the opinion that foreign intervention was the result of revolutionary committees of overruling and constant protest, and that the committee had decided there was too much intervention into internal Greek affairs.

"There was no intervention in internal Greek affairs in 1920 to prevent Constantine from returning and doing harm," he said in conclusion. "But now there is intervention to prevent the harm from being committed. Greece herself must decide her own destiny. The ministers were executed not because they committed political errors, but because they were found guilty of high treason in acts which brought national woe and national ruin."

RESTRAINING FORCE

(BY CABLE AND ASSOCIATED PRESS)
BERLIN, Dec. 1.—Commenting on assurances that the United States still will maintain its military force in the occupied areas of the Rhine, Kurt Eisner, Foreign Minister, says the Rhinelanders undoubtedly will rejoice, as certain minor incidents had indicated that the Americans on the Rhine have acted as a restraint on the French "passion for military encroachment and profligacy with their troops."

An instance of this, it says, occurred when the French were recently prevented through American influence from wrecking a new barracks at Coblenz, the Americans contending that the reconstruction which hitherto had been sufficient for American troops would be ample for the newcomers.

The newspaper adds, however, that the possibility of the continuation of such incidents as those that took place in Coblenz does not rest on the protection of German interests from this source. It expresses the opinion that there is value, nevertheless, in the presence of the Americans, and one is tempted to think that this would have a far-reaching effect than would be possible for the Germans alone.

ARMY HOME SOON

(BY A. P. NIGHT WIRE)
WASHINGTON, Dec. 1.—The remnant of the American Army of the Rhine has not been brought home for the reason that such a move on the part of the United States might be construed as an embarrassing gesture on the part of this government toward tangled European affairs.

That this is the only reason the American troops now in Europe have not been ordered home months ago was admitted at the White House today. There never was a time since the Colorado River conference of recent date that Mr. Hoover will speak publicly on the problems confronting the entire Southwest.

As chairman of the Colorado River Commission and a member of the Presidential Cabinet, Secretary Hoover is one of the foremost figures of the Southwest, and his message on the projected development of the Southwest is eagerly awaited.

PROGRESSIVE BLOC MEETS

Venizelos' Aid Says Ministers Betrayed Their Country

Executed Only After Fair Trial, He Says

(Continued from First Page)

"Later," continued the general, "Constantine, the former king, was overthrown by a plebiscite, which was not at all the will of the people who were intimidated and deceived at the elections. Gradually the great powers saw the folly of the Turkish plan of making the Turks the masters of all waters within their frontiers."

"More than 300,000 Greeks from Constantinople and 400,000 Greeks in Asia Minor will be exchanged against 400,000 Turks from Western Thrace, who will return under Turkish rule. Lord Curzon, ambassador of the statesmen at Athens, was in for bigger things and dreamed of dashing even to the Caucasus and the borders of Persia."

PEOPLES INTIMIDATED

"The Turk seems anxious to get rid of the Greeks inside of their domain, which is essential to regaining control of the country and thus eliminate Christian minorities, which have been installed in the past century," he said.

He added: "Angora insists that the many question of capitulations, which has been worrying him considerably. Venizelos also is boasting this plan if Uncle Sam foots the bill."

CHILD IS SILENT

Ambassador Richard Washburn Child made no comment when the child was discussed, but it is expected that he will enunciate the American viewpoint after he comes to Washington.

The Turk seems anxious to get rid of the Greeks inside of their domain, which is essential to regaining control of the country and thus eliminate Christian minorities, which have been installed in the past century," he said.

MILITARY COMMISSIONER

"The Turk seems anxious to get rid of the Greeks inside of their domain, which is essential to regaining control of the country and thus eliminate Christian minorities, which have been installed in the past century," he said.

PANAMA CANAL OFFICER

"The American control of the Panama Canal and its determination to close the waterway to whom and when it wishes, is expected to the last door of the Mediterranean."

Russia wants Turkish control of the straits, with no warships in the straits at any time, but then it would be like a Russian lake, which all the Allies oppose.

The Turk's compromise plan provides for one warship of any nationality to be permitted in the straits except in time of war.

HARDING WILL BE CANDIDATE, Says Hoover

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, Dec. 1.—President Harding will "obviously" be a candidate for re-election; Russ is now well on its way to recovery; and there is little likelihood of further reductions in the United States Army, according to opinions expressed today by Herbert Hoover, Secretary of Commerce, in a number of addresses and interviews.

Hoover, however, described how American developed resources of \$25,000,000 to assist Russia and established more than 200 stations to distribute food to millions of needy Russians.

WELCOME TIGERB. Louis Prepares to Hear
Distinguished GuestsNewspaper Shows Appreciation
of Government's SupportNewspaper Editor Opens His
Home to VisitorBY P. HENRY WILSON
ST. LOUIS (Mo.) Dec. 1.—St.
Louis was fully dedicated in
French and American flags to-
night to do honor to Georges Clémenceau, Tiger of France, who ar-
rived here this morning on his
post-war tour of America.For miles through the business
district, where he will ride in a
carriage in the morning prior to his
arrival at 2 p.m. in the Edison
trolley wire support, had been draped from sidewalk to
sidewalk with red, white and blue
of the two republics he hopes to
visit.WASHINGTON, Dec. 1.—All official
Washington will attend a state
funeral of the late Representative
James A. Mann of Chicago, who
died of pneumonia last night.The funeral service will be one
of the most impressive Washington
has ever witnessed. It will be held in
the House of Representatives
and will be attended by President
Harding, both houses of Congress,
the diplomatic corps.Both the Senate and the House
adjourned today shortly after con-
vening without adjournment, May
1. The official announcement
of Mr. Mann's death was made in
the Senate by Senator McKinley, Illinois, and in the House
both long-time friends of the late
representative, Senator James A. Mann,
convening, explaining that they would
ask Congress to set aside a day
inter for the purpose of holding

fitting memorial services.

Senator Underwood, Alabama,
Deutsch, Tennessee, and Senator
Overman, North Carolina, con-
vened, expressing their desire to co-
operate with the Republicans in
any action deemed appropriate to
the memory of Mr. Mann.After the services in the House
the body will be sent to Chicago.
Both hours appointed committees

to accompany the funeral party.

BY CARL REED: "In honor and
respect for our people and for
our sentiment fearlessly ex-
posed as to the merit of our cause
we demand by negro troops
in France."The Negroes deeply touched
by the letter said when Louis Le
Peau, his secretary, showed him the
card and read the card, he
retired shortly after 8 p.m.
leaving to arise about 4 a.m. and
was changed to ten years.RICH DIVORCEE
KILLS HERSELFMrs. Helen Henrich Found
Dead in San Diego HomeFormer Husband is Ignored
in Farewell LettersWill Bequeath Bulk of Her
Estate to ContractorSAN DIEGO, Dec. 1.—Dead by
her own hand, the body of Mrs.
Doris D. Henrich, wealthy di-
vorced, was found late last night
in the luxurious suite of the fash-
ionable apartment-house she
owned and operated.When the police broke down the
door of the brilliantly lighted
apartment, they discovered her
body, shot through the head and
still warm. All theories except
that of suicide were eliminated by
the fact that Mrs. Henrich had
made careful and detailed disposi-
tion of her estate.

NOTICES CONTRACTOR

Calmly preparing her will for
death, Mrs. Henrich wrote four
letters and left them with her will
on a desk. Members of her family
were not mentioned in the will,
but the bulk of the property having
been employed as spise, lookouts and mes-
sengers by the bootleggers.

Detroit anti-liquor ordinance

enacted by Mayor James C. Conroy

shortly before she snuffed out
her life, Mrs. Henrich wrote a note
to Bryan, asking him to call and
see her. When he arrived, the
butler found her lying on the floor
and note reading all entrances had
been bolted and asking him to ne-
ver take her life.

FORMER HUSBAND IGNORED

She left no word for her former
husband, who is believed to be in
Tennessee. The four letters were
addressed to her mother, Mrs. H.
Doris, St. Louis, Mo.; her bank
clerk, E. W. Mitchell; a plumber,
Daniel Deacon, and her attorney,
Arthur F. Wright.In the letter to Wright, dated
last November 28, Mrs. Henrich
wrote: "I'll cross the Great Divide
tomorrow."After the services in the House
the body will be sent to Chicago.
Both hours appointed committees

to accompany the funeral party.

HARRIS & FRANK—GABARDINE RAINCOATS

Bomb Suspect
Brought Back
From Poland

BY A. P. NIGHT WISE

NEW YORK, Dec. 1.—Wolf
Lindenfeld, who was arrested by
Department of Justice agents in
Warsaw because he said he knew
who was responsible for the
Wall-street explosion in 1920, but
who later was released, has been
brought back to this country, it
was learned today. The exact time
of his arrival, however, was not
known. He was brought here because
he gave a statement to the
Department of Justice, which he
had written in Polish, and he
had been asked to repeat it in
English.

Officials admitted that he came

recently but volunteered no
information. Detective Sergt.
Clinton Wood, however, who
for several years prior to the
explosion worked with Lindenfeld
and who knew his methods, re-
turned yesterday to the steamship
Lindenfeld, who first visited Linden-
feld in a Polish prison, went at
once to Washington. According
to local Federal officials he went
one to make a special report to
William J. Burns, director of the
bureau of investigation of the
Department of Justice.

REGULAR ARMY IS INADEQUATE

War Secretary Points Out Danger to Nation

National Guard Crippled by Lack of Funds

Equipment of Forces Not Up to Requirements

(DT. P. NIGHT WIRE)

WASHINGTON, Dec. 1.—The present authorized Regular Army strength of 12,000 officers and 125,000 men is "inadequate" for national safety, and further cuts would be "inexcusable," Secretary Weeks declared today in his annual report to Congress.

"We should seize the first opportunity to bring the Regular Army back to the proportions which we require," he wrote.

"We can no longer make the mistake of expecting good soldiers to rise overnight and good officers to be turned out in quantities in three-month periods.

"We are making progress, and this progress is a good process. This progress, however, is not and not really enough. Any further cuts would force us to lose what we have gained, and would accordingly be inexcusable."

"It has taken time and money to build what we have. It has taken blood and money to prove that we have not, even now, what we need. We should when practicable add to what we have and attain to the progress called for in our defense project under the terms of the Neutrality Act."

Declaring the officer corps "is really the backbone of our military system," Mr. Weeks said that security for the future must rest "upon the foundation of our leadership."

"We should seize the first opportunity to bring the Regular Army back to the proportions which we require," he wrote.

"We can no longer make the mistake of expecting good soldiers to rise overnight and good officers to be turned out in quantities in three-month periods.

"We are making progress, and this progress is a good process. This progress, however, is not and not really enough. Any further cuts would force us to lose what we have gained, and would accordingly be inexcusable."

BUSINESS NEWS OF BUSY MARTS

Knicker Suits Capture Fancy of Men Who Travel

Fuel Oil Market Improving; Prices Firm

Europe Looks to America for Food Supplies

Knicker suits have captured the public favor, according to a leading Los Angeles tailor, and are especially demanded by Los Angeles business men for travel wear.

Suits have always been heavy in Los Angeles, but in late months the tendency has been to utilize them for street and travel wear. Foreign cloths are used principally in the construction of these suits, a development which is due to a British wide imported suitings. Sport shirts, knickerbockers, whipped cords and gabardines are in the greatest demand.

WHERE THE PROFIT LIES

"It is therefore evident that our foreign trade—that trade which is the backbone of our annual budget of production—which makes no profit in our total operation."

The National Foreign Trade Council has been active for the last ten years in attempting to profit the American producer and the American business man in the development of his overseas trade.

"We are interested in the bargaining tariff, but we cannot yet say whether or not the recent just passed will provide the necessary machinery for our protection—this because of the ambiguity in terms."

"Not long ago I stopped at the White House and asked the President to do something against the problem of the free zone. Before we succeed in writing the free-zone system into our tariff laws we must carry home to the people of the United States just exactly what the free zone means to us, more particularly to the minds of the legislators in Washington. The National Foreign Trade Council has been active for the last nine months in endeavoring to bring about a favorable solution of any price advance on the finished articles. As the majority of trained economists come from the south of Europe, the new and strong legislation law which discriminates against Southern Europeans, has curtailed the supply of tailors needed in the industry. Wages have been considerably advanced sharply around \$45 a week against \$22.50 before the war.

FUEL CONSUMPTION

Marked improvement in the fuel consumption of motor cars to be responsible for the advance in the positions of petroleum companies. Where a few months ago, these corporations were swamped with excess stocks of fuel oil they are now finding a market demand at firm prices. As fuel oil is not an necessary result of all refining processes, its inability to command a market has heretofore been a drag on producers, but since ship, airplane, marine and industrial concerns have increased their utilization of fuel oil, the problem has gone a long ways toward a solution. Consumption in Germany is \$20,000,000 gallons, or a daily average of 26,000,000 gallons, and the free zone does not affect the tariff laws within this nation to the slightest degree. This fact, however, is difficult to place in the minds of our representatives in Washington.

Fuel oil stocks were increased on \$5,000,000 gallons at the end of November over previous stocks, despite record output in the first nine months of the year. During this period American refineries produced \$22,000,000 gallons more than in the corresponding period of 1921.

The sudden dwindling of light oil output from the Mexican fields has contributed to the strength of the fuel oil situation. Mexican fields produced at one time this year 480,000 barrels daily, but because of the intrusion of salt water, the rate has been steadily declining, ending around 40,000 barrels each day.

Domestic buying has been principally concerned in the fuel oil market this year, although the foreign sales are improving. Exports in the first nine months were less than 1921, but greater than in 1920 and 1918. However, the British, French and Japanese governments are becoming active bidders in the market and will eventually become important fuel oil consumers.

Stock Exchange Building
Los Angeles

FOOD IN EUROPE

Europeans, especially the population of Southern Europe, are looking to America and Canada for important imports of cereals this winter. In spite of factors adverse to importation, such as the depression, unemployment of Germany, France and Belgium, and high prices for the grains in general the peoples of Europe are in need of a heavy volume of cereals, according to the Department of Commerce surveys. Bread grain crops in Europe are for the most part raised and harvested and reduced because of a waiting attitude on the part of buyers, hoping for lower prices.

Italy especially is in a difficult situation, owing to a short wheat crop and a poor potato yield. Russia is not expected to figure in the international grain trade.

Greece will make an increased demand because of the loss of wheat crops in the sections occupied by the Turks. The Scandinavian countries will be heavy buyers, both because of relatively strong demand and shortage of supplies of the grain crops. Germany is reported to have considerable stocks of wheat and rye, but the government is experiencing difficulty in collecting the quota of grain requisitioned from the farmers.

GOVERNMENT BONDS

Government bonds are holding up well. Trading is continuing, but it is not as active as in the early part of the year. There is a large backlog of orders, and many are still being accepted in according to the market. The market is still strong, but the market is not the only factor in determining price. It is the number of additional orders cannot be met.

It is especially worthy of note that manufacturers ready for consumption constituted 35.7 per cent of our exports for the first nine months of this year, and this does not include any of the group of foodstuffs partly or wholly manufactured, which by itself formed 17.2 per cent of our exports. As a considerable part of this group is rightfully entitled to export for consumption, it is obvious that such manufactures are now more than 46 per cent of our total exports.

GOVERNMENT BONDS

The 1923 value is greater than that of 1921. The 1923 value is 48 or 50 points higher than for the year of 1912, when the total of exports and imports was 4,277,000,000. Our total foreign trade in the first nine months of the year was \$20,000,000,000. The decrease for the first nine months of 1921 was 14.1 per cent, with improvement for the last three months for which figures are available. This indicates a total trade for the year of roughly \$22,500,000,000 or about \$21,100,000,000, but greater than in 1918. But, because of the intrusion of salt water, which is measured in dollars only, which is by no means a wholly satisfactory test.

AN EXPERT REVIEW OF FINANCES

Analyst Sees Return of an All-American Era of Prosperity

BY JOSIAH KIRBY,
President Cleveland Discour Co.

There is no more pleasant duty than to record the return of a complete, well-spread, all-American prosperity. It can be said now for the first time this year that it has arrived. It is no longer possible to point to one trade, one industry or to one section of the country and say that it has the edge on another.

Steel mills are producing at the rate of 40,000,000 tons of ingots annually. Textile mills both north and south are operating at the limits of the available supply of skilled labor. The motor trades confess surprise at the volume of their sales output in the off-season of the year. The Iowa farmer, who a year ago was giving away his corn for 20 cents a bushel, is getting 50 cents a bushel now.

The cotton planter whose average for last year's crop was 15 cents is getting 25 cents a pound.

Labor is almost fully employed.

The people have spending money.

They are becoming more and more inclined to buy.

Business has expanded to a point where it is beginning to strain the limits of its production capacity.

Announcements of a 10 per cent increase in tire prices by the Kelly-Springfield company also was interpreted as a bull sign but was not taken in view of the recent advances in cotton and rubber prices. Kelly-Springfield moved up 15-8, United States Rubber 17-8, Goodrich 13-4 and Fisk 2-4.

Publication of more favorable financial reports from the railroads, which were recently reorganized with reports of increased dividends on some shares was held responsible for the better prices of rails. Union Pacific made up all but 50 cents of the \$2.50 dividend, while New York Central paid up 27-2, a net gain of 3-3-4.

Other strong spots in this group were Canadian Pacific, Chicago and Eastern Illinois, St. Paul, Rock Island preferred, Delaware and Hudson, Lake Valley, "B" and Western Pacific preferred, the gains ranging from 1-1-2 to 8 points.

Among the more active shares, Bethlehem Steel "B," Baldwin Locomotive, Electric Storage Battery, Pan-American B and Pligg Wiggly advanced 1 to 2 points and Studebaker and U. S. Steel common stocks 1-2 points. Frank B. Brown Brothers A and Continental Can also established new peak prices, the advance ranging from 2 to 8 points. Mexican Petroleum, Lorillard Tobacco and Krebs also were moderately strong.

International Harvester, after an early gain of 2-1-4 points dropped back for a net loss of 2 points on announcement that for the time being no further stock dividend of 10 per cent would be paid.

It may open at 1-1-2 per cent and then advanced to 6%, where it closed.

The time money market was quiet, thirty-day loans being arranged at 4-3-4 per cent, and the longer maturities at 5% per cent.

Commercial paper rates continued up to 4-3-4 per cent for the prime names.

Foreign exchange was stronger, demand sterling getting up to 4-5-2 and French francs 5-1-2.

Most of the other European rates also showed substantial improvement.

South American exchanges were easier.

Both the lower prices for the franc and the decline in French state and municipal bonds anticipated a return to the result.

Expectations sometimes go too far.

I have no forecast to make nor do I wish to understand that I subscribe to the popular belief that France cannot get by.

National balance sheets are to be viewed just as corporate balance sheets, and when corporations whose income and expenditures were in a much worse plight pull through,

FINANCES AT HOME

In home government finances, the month has gone by and the now long-time United States issue of 4% per cent bonds has scarcely as yet substantiated the issue price.

I believe, however, that it requires only the destruction of excesses and the ability to release funds sufficient to put the new government bonds to a premium.

In the meantime, the markets continue to show their unusual favoritism for shorter-dated investments, but this must not be taken to mean that the market will not be restored in due time.

There will be no difficulty in the way of complete government refunding of the shorter-dated debt.

At the same time, the inevitable weight of the effort will have continually increasing the popularity of investments with slightly closer maturities.

We are still experiencing one of the best ready bond markets in the history of American finances.

Political difficulties have not been relieved. There is an inconsistent demand for the transfer of rolling stock to the West, to move the year's agricultural products at a time when industry in the East is making equally urgent requests to move out their accumulation.

Political forces are shaping for another campaign for a bonus bill to be put through before the end of 1923.

If the country's present prosperity continues at even pace in the next twelve months, we will see the stand even of a bonus bill, but before a new bonus bill can be put through, the world will have taken the measurement of the European situation and we, in this growing country, will know to what extent, if any, its retroactive influence will bear upon our own

prosperity.

THREE CAUGHT IN FRAUD RAID*Scheme is Charged by Government**Accused of Posing as Officials Seized**Clever Phrases Said to Cover Clever Plans**Three Investigators Had Their Activities to the Accusation of Justice, P. A. Clown, and William Wallace, and James Lind, were arrested yesterday on charges of impersonating Federal officers.**After their arrangement before Commissioner Long, who set their preliminary examination for the next day, the three men were held at the County Jail in downtown Los Angeles.**Clown, who bears the self-same name of "provost," refused to name the car he used, but said he might be able to furnish it. He said he was hurrying to a golf game at Griffith Park. He will begin his sentence tomorrow.**Only ten speeders were caught in all Los Angeles on Thanksgiving Day by twenty motorcycle officers.**Police Capt. McDowell of the traffic division announced this yesterday as the result of Thursday's campaign and declared it was directly due to the prison sentences meted out in Police Court.****LONGEST SENTENCE****The longest sentence given yesterday by Judge Frederickson, was 15 days, handed to Ralph Rudock, who, the police declared, turned a corner at Central avenue and Twenty-third street on two wheels. The other reckless driver, J. J. Dean, smashed into two other cars in Los Angeles and Sacramento and appeared to have been drinking, the police said. He will be sentenced today.**The speeders who appeared drew***GENTLE RAIN OUT-TRICKS JACK FROST***Golden Drops From Velvet Sky Wilt His Schemings; More Promised Today**Following are the rainfall figures, in inches, reported from various Southern California points, up to a late hour last evening:*

Station	10 a.m.	12 p.m.	1 p.m.	2 p.m.	3 p.m.
Los Angeles	.00	.00	.00	.00	.00
Ashland	.00	.00	.00	.00	.00

Torrey Pines	.00	.00	.00	.00	.00

*Frost fared for this region yesterday morning did not materialize, the cloud blanket preventing threatening weather was the order of the day in Los Angeles, with flurries of rain only sufficient to slow traffic and worry motorists somewhat. Less than .07 of an inch was recorded up to sundown, bringing the total for the past four days to about .28 of an inch.**Overcoats have become popular in the past few days, and a raw wind yesterday helped the demand for them. Today is likely to be much like yesterday, according to indications, with perhaps a bit more snowfall than yesterday.**Surrounding cities reported rain in varying quantities, most of it mere flurries.**Localities reporting no rain yesterday were Bishop, Riverside, Redlands, Porterville, San Diego and Pomona. Santa Barbara got a mere flurry of drops.**Redlands reported that after two or three days of isolation the mountain resorts were again connected by telephone, and it is learned that from Cajon to San Jacinto the mountain peaks and canyons were buried in their first big blanket of snow. Early snow mean much water stored in the hills for the dry summer.**The speeders who appeared drew**(Continued on Tenth Page)***RECKLESS 'RHYMES'***Ronald Wright is a smart young top Who speeds past street cars as they stop. Some day a car will turn to the Without a stop. Lubovitski, the Lyric Club, John Smallman, Wedgeworth orchestra and the Zolin string quartet.**The committee in charge of arrangements is headed by F. L. Grannis as chairman and includes Mrs. J. C. Carter, Mrs. E. G. F. Garrison, W. C. Clark, Jr., L. E. Bohmeyer, Harry Chandler, H. Haldeman, F. W. Blanchard, John W. Booths, Harry Braden, H. L. Nolder, George H. Barnes, E. Platt, E. P. Tucker and Merle Armitage.**The committee is issuing the absolute assurance that 100 per cent of the money derived from the concert will go to the children for whom benefit the performance is given, with no deductions of any kind for expenses. The auditorium has been donated, the advertising is being provided free of charge on billboards and in newspapers, the admission price of the program is being done free and the services of the artists will be provided without charge.**It is planned to have the program consist of fifteen numbers given by artists whose presence on the program assures the audience of a musical entertainment of unusual merit.***Injured Airman Fighting Death After Bad Fall***Hubert Kittle, whose airplane crashed with him at 1422 Wilshire street Thursday, was removed yesterday from the Receiving Hospital to the Angelus Hospital. His condition, if was said, seemed slightly improved.**Kittle was reported to be conscious and able to talk, but was still hanging between life and death by a thread. He has a fractured skull, broken ribs, broken left leg and nose, and possible internal injuries, besides cuts and bruises.**Kittle ascended from Rogers Airport to give his friends and family some thrills. He descended to within 150 feet of his house and leaned from the cockpit to wave his wife and sons, Hubert, Jr. and Robley, when the crash came and his machine landed in a pile of lumber in a vacant lot. The aviator was pinned beneath the wreckage.**Two more flights were made, Ballenger being the pilot on each occasion. He was chosen for the duty on account of previous experience. He was one of the pilots of the NC-2, the naval seaplane which was wrecked near the Azores in 1918, while attempting a transatlantic flight. Lieut.-Commander E. G. Allen, first aviation officer, was the passenger on the second flight, and Lieut. A. S. Marley, aviation officer of the Oklahoma, who, with Allen, prepared the experiment, went up on the last flight.**With a passenger the seaplane**did not rise with the speed shown**on the first trial, but with the**workers believe that the en-***TODAY'S BIBLE TEXT***THE WAY TO PEACE.—Acquaint now thyself with Him, and be at peace: thereby good shall come unto thee. — Job xxii, 21.***History-Making Test Proves Great Success***[P. & A. A. Ballenger was successfully launched for the first time in naval history from a catapult on the deck of the U.S.S. Oklahoma, off Los Angeles Harbor. Though airplanes have been flown from runways aboard ships, the scheme was deemed impracticable for actual service, and discarded.**After twelve years of designing and experimenting, the staff of the Pacific Fleet stood upon the quarterdeck of the Oklahoma and saw the light flyer hurtled into the air and sail gallantly away.**The United States Navy today is the only naval organization which possesses the means to send from the decks of its men-of-war its air protection. Yesterday's demonstration of the new device not only to the Navy but to all the world, where speed for mails and passengers is essential.**It is planned to have the program consist of fifteen numbers given by artists whose presence on the program assures the audience of a musical entertainment of unusual merit.**With the successful trial flight behind them, aviation and tactical officers of the Pacific Fleet are going ahead with plans for developing the air arm of the service to the highest point of efficiency. Within a few months it is hoped to have each battleship equipped with a catapult for launching her own bombers and fighters.**When this is done naval officers believe that the battleship division can engage an enemy fleet without the expense of sending forces of airplane carriers as the ships themselves can transport and send up their aviation units.**In efficiency of action the trial yesterday left nothing to be desired.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult, which cost \$10,000, was shot from a stand on the deck of the battleship.**The catapult*

COURT BLOCKS ELECTRIC GRAB**Permanent Injunction Likely to Halt Scheme****Attack on Property Rights is Resisted****Public Service Commission's Hand in Project**

Superior Court Judge Craft yesterday afternoon issued an order summoning Acting Mayor Criswell and other city officials and members of the State Railroad Commission to appear before Judge Hahn next Friday morning at 10:30 o'clock to show cause why a permanent injunction should not be issued restraining the city from proceeding to acquire the \$17,000,000 electric generating and distributing system of the Los Angeles Gas and Electric Corporation, according to the City Hall upon Acting Mayor Criswell, City Auditor Myers and City Treasurer Powell and upon officials at the offices of the State Railroad Commission.

The hearing next Friday morning will mark the beginning of a hard-fought battle by the gas company to defeat the efforts of its Public Service Commission and its municipal ownership and to save friends of the corporation, the company, while the corporation is spending more than \$2,000,000 in making extensions and betterments to its system to meet the needs of the tremendously increased population.

COMPANY'S POSITION

The company in its application for an injunction, declares that the action of the Council last Monday in adopting by a 5 to 4 vote a resolution calling upon the State Railroad Commission to make a survey to determine the value of the electrical properties of the gas company, the beginning of condemnation proceedings was illegal. This view of the Council's action was set forth from the floor of the Council by Councilman Mischel, who said that the resolution "not only carried but was defeated" in the company being required, he said, to adopt it. He based his stand on these two points:

First, that the city charter provides that an appropriation of city funds requires six votes in the Council, and the five votes cast in the second reading—President Criswell and Councilmen Conaway, Mallard, Stanborn and Wheeler—for starting proceedings before the State Commission, and four—Councilmen Allen, Lexington, Mischel and President Criswell, who is Acting Mayor, had no legal right to cast a ballot in the Council which would thus place him in the position of functioning in two city jobs at the same time.

Councilmen Lexington and Allen agreed yesterday that their reason for voting against the resolution calling upon the Railroad Commission to make a survey of the electrical properties of the company was that they believed it would be unfair to use the Council to discredit and embarrass the company.

VALUE UNDERRATED

As showing the tremendous size of the electric system of the Los Angeles Gas and Electric Corporation, which the Public Service Commission hopes to get the taxpayers to take over, Vice-President Chang Vance of the company said yesterday that these electric properties, including generating and distributing systems, were worth today \$12,000,000, and not \$7,000,000, which the municipal owners, who are behind the agreement drive to grab the gas company's electric business are saying the properties are worth. Mr. Vance called attention to the extensions the company is now making, and said that one year from now the properties would be worth \$20,000,000.

When the same public service board and its Socialist friends began the campaign just a few days ago for the city to go into the business of generating and distributing hydroelectric power, they said that the Los Angeles Gas and Electric Corporation and the Southern California Edison Company, the main campaigners promised that if the tax money would go to the company that the return made by the electric power would be so enormous that the profits of the power bureau that not alone would they be sufficient to pay off the bonds, but would be used to reduce taxes in Los Angeles. That this plan did not last is shown by the fact that just to last year the people had dug up and paid from taxation over \$1,000,000 to pay the interest and sinking fund requirements on the power bonds.

WIFE WAS TOO WILD, IS HUSBAND'S CHARGE**MAN SEEKING DIVORCE SAYS SPOUSE DRANK, STAYED OUT NIGHTS**

The influence of a woman, five times married, upon his wife, Greenland K. Wild, broke up his home. Frank S. Wild asserted in a divorce complaint filed yesterday. The Wilds have three children. Their lives ran smoothly until the off-married woman came to live with them. Wild said, "But you know." I confided, "when the Queensland government went in for the butcher business, some stupid person did call it Socialism."

The gentleman looked too utterly disgruntled, so I changed the subject. "How long has this Bond of Heaven been in existence?"

"Oh, a long time. A very long time. But I opened this office only on the first of the month. Before that I worked in private—in a private room—but did not meet the public. But in a few days now we shall have the bank furnished with good bank furniture. Banks made now. And an Act of Congress will be put on the windows. Oh, and there is the rock and burial benefit. One membership \$3, and dues \$1 a month," he added, "but that has nothing to do with your contract."

"Oh, has the government adopted Federal insurance? How lovely!" I gurgled.

FUNERALS, TOO

"They don't call it insurance. They aren't. Congress won't let them. But it is a wonderful stock

STORM WATERS TO BE CHECKED**Council Takes Action After Residents Complain****School Attendance Suffers, Says Principal****Engineer Instructed to Clean Out Gutters**

The City Council yesterday, by unanimous vote, took steps to provide temporary as well as permanent relief from storm-water conditions in the southwestern part of the city after the appearance in the Council chamber of a large number of property owners and residents of that section asking for immediate action before the winter rains start. Appearing before the Council yesterday as spokesman of the protesting citizens were H. H. Couchman, principal of the Mountain Park School; L. W. Coffey, president of the South Los Angeles Improvement Association; C. H. Piper of the Southwest Chamber of Commerce, and L. D. McEachan, told of children being prevented from attending school because of the down washes on Manchester and Manchester avenues and on Figueroa street, and of home owners being rescued in boats last winter.

KEEP AT HOME

Principal Couchman said: "Two thousand children cannot get to school during these rain periods. At Manchester avenue and at South Park the school attendance is down 25 per cent or 20 per cent of normal. The two schools enroll 1800 children. Flood waters thus interfere with school attendance for days at a time, interfering through weakened vital structures, such as roofs at school, with protection of children, also causing children to continue another term in a grade and adding to the cost of education in the city. The schools have been closed down, so the city and county health failed to get a change and automobiles have removed them to pay out their cars or water has carried them to a lower level."

"Children who have prided themselves on never having been absent from school are afraid to get around the deepest water, and have been caught in torrents of rain in the middle of muddy streams, arriving at school drenched. I have drawn figures at Manchester to be compared with three feet of water when there has been no rain in this part of the city and no broken water pipes anywhere."

SCHOOLS AVOIDED

"After these rains these school children continue out of school with colds. After these rains, also, these schools receive requests for transfers which are not normal." Councilman Allan said that the district should be given immediate temporary relief reading the combination of permanent storm drains, drains and gutters. Councilman Wheeler, seconded by Councilman Sparks, the City Engineer was instructed to report at once to the Council place for cleaning out the gutters and otherwise providing relief. The large drainage project sponsored the Council's quick action.

NEW ERA SHINY MAKES ITS BOW**(Continued from First Page)**

"I am with the gentleman, pointing specifically to the postman, pointing specifically to the postman, I mean, and looked up. I mean, I looked up and that convinced me.

"What I make the postal order payable to Washington, D. C., too?" I asked foolishly.

"You have to be for Bond of Honor at this address," the gentleman graciously informed me, "and I am an information bureau."

Returning later with my postal order and the guarantee and maskingly smirking it, Mr. Clown took it almost amably and noticeably unsmiling.

"THAT REVOLVER

During all of this the two blank-faced gentlemen and I had stood motionless and looked on. But the postman hung an immense United States flag. And in that open doorway repeated the big gun. On a table were some little samples of funny things in bottles. In the window a number of coal, oil, kerosene barrels, oil, little bags of potash.

"It is really all very simple," said the gentleman as he handed me the receipt slip. "Just trust your good fortune. I do left hanging. 'Oh, say, can you see, by the day's early light . . .' and who would not exchange mouldy old 4 per cent Liberty Bonds for 14 per cent on contract and consumption?"

Besides, the gentleman was almost as insulting as our passport office in San Francisco when I came in to inquire in 1918 whether a majority United States government official could get away with that successfully.

I am afraid I am rather stupid at business, but of course, every man, hard-headed business man, who reads the foregoing faithful record of what transpired between me and the postman will, I am sure, realize that I arose rather sumptuously to the occasion that day. Now, didn't I?

"Now, I am rather stupid at business, but of course, every man, hard-headed business man, who reads the foregoing faithful record of what transpired between me and the postman will, I am sure, realize that I arose rather sumptuously to the occasion that day. Now, didn't I?

CHURCH SHOWS GREAT GAIN**Dr. Francis and Congregation Will Celebrate Eighth Anniversary Tomorrow.**

Special interest centers about the services at the First Baptist Church tomorrow morning when the members and officials will celebrate the eighth anniversary of the pastorate of Dr. James A. Francis. The last eight years have constituted period of remarkable prosperity for this church, the membership having grown from 750 to more than 1700 and the church donations having been more than quadrupled. Total contributions, for various worthy causes, during the last year exceed \$100,000, according to announcement made by church officials.

Associated with Dr. Francis in the management is a force of efficient workers, including the Rev. Oliver U. Chapman, assistant pastor; Mrs. Frances L. Neth, director of the Girls' Corner Club; William E. Cooley, musical director; Miss Eva L. Eaton, financial secretary; Miss Lois J. Zehn, church secretary, and a board of twenty-one deacons and twenty-one deacons.

Dr. Francis will be in general charge of both services tomorrow. In the morning he will give an anniversary message and in the evening an address on some subject of his choice of discourse to be discussed by Dr. John A. Eby in a sermon on "Will God Damn the Doubtful?" to be preached at the Wilshire Presbyterian Church. The theme for the morning discourse is "The Strong Church and Every Member."

WILSHIRE METHODIST
George C. Clementeau's visit to America, and the large number of his trip to Grant's Tomb and his various addresses in this country will be discussed in the introduction to a sermon on "The King You Can't Have," to be preached at the Wilshire Methodist Church tomorrow morning by Dr. Benjamin Haywood. In the evening Dr. Haywood will preach a trivology lecture-sermon on the subject "I Go Up to Jerusalem."

FIRST UNITARIAN
The service at the First Unitarian Church tomorrow morning will be under the direction of the Leiman's League. Devotional services will be conducted by Dr. W. F. Fox, M.D., the chief editor of "The New Age." Dr. Fox will speak on "The Great Issues of Our Age." His sermon is in progress for the Nativity Play to be given at 5 p.m. December 17, in the evening of a "New Age" in the evening of "The New Psychology and What It Means to You." Dr. Frank will be remembered as the founder of the People's Liberal Church in New York, of which organization he was president for many years.

Dr. Frank, who will speak on "Immortality" are shown among the standard publications on that subject recently acted as the head of an organization that needed from Dr. Aked's Congregational Church at San Francisco.

TRINITY METHODIST
A series of lectures entitled "Through the Bible in Ten Days" will be started by the Rev. J. C. O'Hair tomorrow morning at Trinity Methodist Church. The series will be conducted every day at 8 a.m. and 1:30 p.m. The first message will be given tomorrow at 11 a.m. when the Rev. Mr. O'Hair will speak on "In the Beginning: God." Tomorrow afternoon the series will be given on the "Book of the Bible" and "The Art of Theology." In the evening the Rev. Bob Shuler will preach on "The Profits of Christ in the Life of Man."

IMMANUEL PRESBYTERIAN
"How Many Lives does a Christian Live?" is the question to be discussed by Dr. Herbert Booth Smith in a sermon at the Immanuel Presbyterian church tomorrow morning when Dr. Smith will preach on "The Art of Living." In the evening Dr. C. Elliott will speak on "Divine Healing vs. Mental Healing."

THIS FREEDOM
"The Meaning and Message of the Revolution" is the theme of a sermon to be given by Rev. William McCormick, D.D., tomorrow morning at the Scottish Rite Auditorium, headquarters of the congregation of St. Paul's Protestant Episcopal Church in the evening Dr. McCormick will read from Mr. Hutchinson's book, "This Freedom," a story of the social chaos and revolt among the women of this age.

FIRST CONGREGATIONAL
The program at the morning service of the First Congregational Church tomorrow morning will center around the theme, "The Church." The every-member canvass will be conducted in the afternoon by 200 men of the church. Tomorrow evening the moving picture, "No Treason," will be shown. "No Treason" will be the subject of a discussion for the service next Wednesday evening. The neighborhood circles will meet on Thursday to make stockings for Christmas trees.

WILSHIRE PRESBYTERIAN
"What will God do with the Doubters on Judgment Day? Is doubt always a sin? If not, when is it a sin? Was there ever a

time when I had spells of stomach trouble? I think I couldn't get well. This sympathetic statement was made recently by W. C. Wallace, 320 N. Normandy Place, Los Angeles, California.

"Tansie is my stand-by and I wouldn't think of being without it. This medicine has set me on my feet more often since I had those spells of stomach trouble. I think I couldn't get well. This sympathetic statement was made recently by W. C. Wallace, 320 N. Normandy Place, Los Angeles, California.

"An acid stomach and indigestion caused me the most indescribable suffering for more than four years," he said. "Awful pains would strike me soon after eating and I would be almost doubled up in agony. In my miserable condition I would be simply good for nothing and had to take to my bed. I would lose much weight with every spell. I was told I had ulcers, enlarged stomach and other ailments, but all my efforts to get relief failed. I kept getting worse and figured I would have to get something to help me or I couldn't keep going much longer."

WOODLAND WHISTLERS
The chief feature of the First Methodist Church program tomorrow will be the entertainment to be given at Trinity Auditorium in the evening by the Woodland Whistlers, a quartet of young men who are now on a concert tour and who are said to be the first noteworthy rivals of the birds of Southern California. In addition to this feature a musical program will be given by the large orchestra and choir of the church.

"STUFF AND STUFFING"
Clinton A. Billig, M.A., will be the speaker tomorrow morning at the Church of the People, his subject being "Stuff and Stuffing." The speaker for the evening will be Manly P. Hall, who will give an address on "India's Bloodless War." Lyceum will be conducted in the

THIS GOAT SHOWS BUSINESS SENSE**Keep up Warrant for Cash. But Leaves Enough for Collection**

The story of a goat with a business conscience was related yesterday to officials in the County Auditor's office by Cleo Patterson of Grant Station.

She exhibits, by way of proof, the mutilated fragment of a \$10 warrant, all of which has been eaten away but the amount, the number of the warrant and the validating signature.

By sparing this particular section the discriminating animal has preserved the value of the warrant without impairing, to any marked degree, the extent of its meal.

At 8:30 a.m. and Sunday school at 11 a.m.

TO START REVIVAL

"The First Methodist Church is not here to cut. We have come to preach out the old-fashioned Gospel. Our doctrines and aims are exactly those of the Methodism of 100 years ago." That is the statement of faith made yesterday by the Rev. Carl G. Howell, pastor of the Second Methodist Church, who, assisted by Rev. Claude A. Watson, will begin a series of revival services at his church tomorrow evening. The meetings will be conducted every night except Saturday. The church is at 200 West Thirtieth street. Services will be conducted tomorrow morning also.

SAVING AMERICA

The local Auxiliary of the Woman's Home Missionary Society of the Westlake Methodist Church will conduct its annual meeting at church tomorrow morning. Dr. W. T. Wright, the pastor, will preach on "Saving America," and Mr. W. W. Babcock, president of the auxiliary, in the evening Mr. Wright will preach on "Drinking From Jesus' Wells."

CHRISTIAN SCIENCE

Services will be conducted tomorrow morning at 11 o'clock in the fourteen Christian Science churches of Los Angeles. The subject of the Lesson-Sermon is "God the Only Cause and Creator." Services will be conducted tomorrow at 11 o'clock in First, Third, Fifth, Sixth, Ninth, Tenth and Thirteenth churches and at 3 p.m. in Second church. All the churches hold a regular Wednesday evening meeting at which instruction in Christian Science healing are given.

CHURCH NOTES

Dr. Edwin F. Rector, pastor of St. Mary's Episcopal Church, will preside over the annual meeting of the Board of Deacons on Dec. 1. The service will be at 10 a.m. at the church.

PREACHER GETS AUTOMOBILE

In appreciation of the work of Rev. C. C. Sinclair, who for the last two weeks has been conducting revival services at the Magnolia Avenue Christian Church, resulting in the addition of eight new members, the congregation of that church yesterday voted to purchase a new automobile to be presented to the Rev. Sinclair as a gift.

The service tomorrow morning will be "Love That Stands the Test." The revival services will be conducted every evening next week with the exception of Saturday.

PREACHER GETS AUTOMOBILE

In appreciation of the work of Rev. C. C. Sinclair, who for the last two weeks has been conducting revival services at the Magnolia Avenue Christian Church, resulting in the addition of eight new members, the congregation of that church yesterday voted to purchase a new automobile to be presented to the Rev. Sinclair as a gift.

The service tomorrow morning will be "Love That Stands the Test." The revival services will be conducted every evening next week with the exception of Saturday.

DR. HONOR HER MEMORY

A service of tribute to the memory of the late Mrs. Christine W. Stevenson, founder of the Pilgrim Play, will be conducted tomorrow morning at the North Wilshire Methodist Church, with Rev. Mrs. A. S. Stevenson in charge. A special musical program will be rendered by the choir and selected soloists, and among the speakers will be Mrs. J. J. Carter, an intimate friend of the late Mrs. Stevenson.

CELEBRATE ANNIVERSARY

Tomorrow marks the twenty-fifth anniversary of the arrival in Los Angeles of Dr. Hugh K. Walker, president of the Church Federation and pastor of the First Presbyterian Church. At the service at 11 a.m. tomorrow morning Dr. Walker will address his congregation on the subject, "Twenty-five Years of Religion in Los Angeles." In the evening the pageant "La Roja," a pageant of India, will be given.

WESTLAKE PRESBYTERIAN

"When Should a Preacher Resign His Church?" In discussing this question at the Westlake Presbyterian Church tomorrow evening, Dr. G. A. Briggle will make a defense concerning the invitation which he has received to become executive secretary of the Lord's Day Alliance for California. He will also announce his decision on the matter and will tell the reasons leading up to his choice. At the opening hour Dr. Briggle will remain in the church for an hour in Religious Experience."

CAN WE LOVE ENEMIES?

An attractive feature of the service at the Temple Baptist Church tomorrow evening will be the rendering of the sextet from "Lucia," one of the most popular shows in Los Angeles. The sextet will be composed of Constance Baldwin, Alice Lohr, Harold Proctor, Frank Geiger, L. R. Wharton and Emory Foster. Dr. Brougher will preach on "Can We Love Our Enemies?" in the morning and the evening services. "Gught We to Hunt and Fish on Sunday?"

BIBLE INSTITUTE

Continuing his series of sermons on "The God of the Bible," Dr. R. T. Torrey will speak at the Church of the Open Door tomorrow morning on "God is Abundant in Love and Kindness," his subject for evening being "Saved by a Cry." The annual division of "The Mission" will be given Tuesday evening, the 23rd inst. Free tickets to the entertainment may be had at the Elsie Institute.

"I would lose much weight with every spell. I was told I had ulcers, enlarged stomach and other ailments, but all my efforts to get relief failed. I kept getting worse and figured I would have to get something to help me or I couldn't keep going much longer."

WOODLAND WHISTLERS

STUFF AND STUFFING

Clinton A. Billig, M.A., will be the speaker tomorrow morning at the Church of the People, his subject being "Stuff and Stuffing." The speaker for the evening will be Manly P. Hall, who will give an address on "India's Bloodless War." Lyceum will be conducted in the

Los Angeles Daily Times.

DECEMBER 2, 1922.—[PART]

SATURDAY MORNING

POSTOFFICE MACHINERY DISPLAYED**Crowd Visits New Arcade Station to See "Wheels Go 'Round"**

The opportunity for viewing the inside workings and equipment of a modern postoffice that was given last night to the Los Angeles public through the formal opening of the Arcade Postal Station, was taken advantage of by a throng that packed one of the large distributing rooms as they listened to the speakers, under the chairmanship of Motley H. Flint.

The show, which consists of short talks by Postmaster P. F. O'Brien, Mr. Flint, Sheriff George, who represented his father, Congressman Osborne, Postmaster James F. Power of San Francisco, and General Clegg and Joseph J. Roosevelt, Postmaster of Cleveland, was concluded by a tour of the building and an exhibition of its equipment and facilities.

The new station, which is completely equipped in the West, was opened for business on November 15, last. It is now in full operation and is handling the mail of the city of Los Angeles, situated Third and Central avenue, is 152 by 275 feet, and will accommodate forty-four motor trucks with convenience. It will take care of the shape of the mail for 1,000,000 persons.

Music for the evening was furnished by the Los Angeles Letter Carriers' Band, which gave a varied program. This was a pleasant surprise and the shape it brought forth appeared to be a \$100 donation, to be spent on uniforms.

EXAMINATIONS FOR CLERICAL JOBS SOON

An examination will be given on the 9th inst. for clerical positions in the Motor Vehicle and County Civil Service Commission. Room 1007 Hall of Records, announced yesterday. The jobs carry \$40 to \$90 a month and require no special training.

PHYSICAL TRAINING FOR GIRLS, FREE

Divorce Complaint Avers Spouse Comfortable as Wife Miserable

The complex house that August H. Westman built at San Fernando furnished him with many amusing situations, all founded upon the discomforts suffered by his wife, Mrs. Susanna G. Westman, the mother in a divorce complaint filed yesterday.

The complaint, filed by Attorney Daniel M. Hickey, recited that Westman allotted one-half of the house to his wife and children and reserved the other half for himself. His side was divided and each had cracks sealed against the elements, but his wife's half portion leaked and admitted the cold winter.

In spite of the protests of the American Legion and other organizations, the Philharmonic Auditorium has been rented and tickets for the concert are now being sold.

The appointing of a committee to represent the Hollywood post of the legion followed the passing of a resolution yesterday morning of the post which opposed the appearance of Mme. Gadski on the 11th inst. or "any other date" on the grounds that during the war she was antagonistic to United States troops.

Mme. Gadski, it is claimed, will be given her suit and laundry by the maid of honor of her better half in the hall of the structure. It was asserted, a hallway leading from his wife's room to the bathroom was not floored and in negotiating the hallway she said she was coming up the floor. This provided many laughs from his spouse who watched and chuckled.

On one occasion she fell between the joints and he refused to assist her despite the fact that she had injured herself, she declared.

The Westmans were married in Salt Lake City in 1908 and separated in San Fernando on February 1, last.

CALLED FROM PRISON ON ANOTHER CHARGE

COURT FINDS THAT ACCUSED WENT TO SAN QUENTIN TOO QUICKLY

After Mike A. Sullivan and W. H. Groves had pleaded guilty and were sentenced to San Quentin on a grand larceny charge, they were sent to prison by mistake before they could be tried on a more serious charge of robbery. It was disclosed yesterday by Judge Shank's court.

The two were brought back for trial and yesterday appeared before Judge Shank again for trial on a charge of robbery of the man in charge of a Standard Oil service station at Sixteenth street and Union avenue.

By agreement between Dep. Dist.-Atty. McCartney and Fred Thompson, defense counsel, the case was set for trial on the 20th inst. A stay of execution of the other sentence was ordered pending the trial by Monday night.

It is pointed out that the opening and paving of Trolleyway will relieve traffic congestion in Venice.

The project will necessitate moving the Pacific Electric tracks to the center of Trolleyway.

By agreement between Dep. Dist.-Atty. McCartney and Fred Thompson, defense counsel, the case was set for trial on the 20th inst. A stay of execution of the other sentence was ordered pending the trial by Monday night.

The order keeps passengers off our ships from both sides of the ocean," Mr. Schwab said in an interview at San Francisco after his arrival there yesterday from Neva. The ship and shipbuilding interests of the city are interested in the opening of the Panama Canal.

Mr. Schwab, who has been engaged in the construction of the Panama Canal, is the author of a book on "The Panama Canal," published by the Standard Oil Company.

WILL ROW BOBS UP ONCE MORE**Jacquin Legal War for Estate Forecast****Court Appoints Temporary Administrator****Revival of Battle Hinted on Next Move**

Memories of the Jacquin will battle were revived yesterday when Presiding Judge Willis appointed the California Trust Company temporary administrator of the estate of Dr. Sidney S. Jacquin, wife of Dr. Jean W. Jacquin, and mother of Miss Wilma J. Hynes, prominent in society circles here.

Interest in the affairs of the estate need attention it was requested by Dr. Jacquin that a public administrator be appointed. The trust company was named temporarily and it was hinted that another legal skirmish will start when the new committee of management administrator to be named.

Mrs. Jacquin before her marriage was the widow of Judge J. W. Hynes of Chicago, to whom she had been married forty-four years. Judge Hynes died an amiable man, a fortune by his legal services in such famous cases as the Cronin murder trial, the prosecution of Senator Lermer and others. Dr. Jacquin attended him during his illness.

Fourteen months later the aged widow and the young doctor were provided for by the will of Judge Hynes.

ROBBER SENT TO SAN QUENTIN

Negro Admits Charge and Gets from Year to Life in Prison

Robert Burns, colored, stood before Judge Shenck yesterday to face a charge of robbing T. Kuyamura on November 9.

"Robert Burns, is that your true name?" he was asked.

"One of them, sir," he replied. "The other one is Robert Williams."

The defendant pleaded guilty to the charge, waived time and was sentenced to life and it was hinted that another legal skirmish will start when the new committee of management administrator to be named.

Mrs. Jacquin before her marriage was the widow of Judge J. W. Hynes of Chicago, to whom she had been married forty-four years. Judge Hynes died an amiable man, a fortune by his legal services in such famous cases as the Cronin murder trial, the prosecution of Senator Lermer and others. Dr. Jacquin attended him during his illness.

Fourteen months later the aged widow and the young doctor were provided for by the will of Judge Hynes.

Fearing Thieves Boy Shoots His Friend in Leg

By a "Times" Staff Correspondent

SANTA MONICA, Dec. 1.—Mistaking his friend, Horace Mausy, aged 17 years, for a burglar, Robert Kenaston, aged 14, shot him in the leg with a .22-caliber revolver. The accident occurred last night at the home of Mausy's uncle, W. W. Evans, 133 Georgina avenue, with whom he had come to spend the day. Evans had gone with his machine to mow the lawn but missed him. Finding no one at home when he arrived at the house, Mausy sat down on the lawn to wait.

Young Kenaston, whose parents are in San Francisco, became nervous when he saw his friend sitting in the shadows and, thinking him a prowler, produced the revolver, took aim and fired. Shortly after the accident the uncle of the boy, who had given medical assistance was given the boy, who is not seriously injured.

Mr. Evans, uncle of the injured boy, emphasized the fact that the boys were the best of friends and it was purely a case of mistaken identity.

STERRETT BURGES IS WANTED BY NEPHEW

Does anyone know Sterrett Burges, who has a nephew, Austin W. Burges, in San Antonio, Tex.?

The nephew would like to get in touch with him and believes he is in Los Angeles. Austin W. Burges, who is on the staff of the San Antonio Light, has to go to a sanitarium for his health and needs some one to look after his family while he is there. It isn't a matter of finances, but of personal affairs. Mrs. Burges and her children live on a small farm near San Antonio and her husband does not wish to leave her alone.

The uncle's name is not in either the city directory or the telephone directory. If this item comes to his attention, his nephew would like to hear from him immediately.

FOOD ACT VIOLATION BRINGS COMPANY FINE

Judge Trippet yesterday assessed a fine of \$100 on the New Central Canning Company of this city for violation of the Pure Food and Drug Act. The offense to which the defendant pleaded guilty was the shipment of bacon from Los Angeles to New Orleans that was adulterated and misbranded. The fine was paid.

*The best bread
for your youngsters*

THERE'S a difference in bread that children recognize instinctively, though this childish wisdom is usually termed "loss of appetite."

Naturally a child can't be expected to relish bread that is mere bulk and filler, when his early milk diet has trained him to demand a full measure of nourishment.

HOLSUM Bread fills this demand, for it is made with rich, whole milk that serves a double purpose in children's diet. It gives to the slice an appetizing flavor and provides the vitamins that are so necessary to growth.

Every other ingredient in HOLSUM likewise contributes nourishment that makes it the real food for children.

It's a delicious and dainty make the "bestest" drink, too, at the same time. Sunburst wonderfully fine for ice cream cake flavoring, icing, candy, everything that you want especially and truly delicate of taste. Those little jugs in which it is up, aren't they individual? don't they make a desirable to send out of the State to the world wide? Sunburst is the purpose now available for everyone who tastes it, loves it, and it's pure, it contains no sugar and juice of citrus fruit.

Some people want a lot of room for visiting one firm or other to do their buying but two are necessary for the woman who knows what told that she can't be dated sold by any one. American Biscuit Co., 16th st., the biggest, finest, most delicious she has tasted, they have assembled beautiful fruits and all the other articles which go in boxes or baskets packed for holiday gift giving, of which shows wonderful discrimination. We all truly appreciate their prices as reasonable as well.

When using a cake tin with removable bottom, run a thread around the cake and it will come off perfectly.

We know perfectly well that white whitewash in any part of the house is like a bit of green in a shirt, a constant source of annoyance, enough of Frederick O'Brien's Wedgewood White Eggshell Paint will give a like appearance. When at your hardware dealer ask for a color to try out.

Quickly cup cake tins that have found most satisfactory.

You wouldn't spoil the otherwise perfect appointments of your table by using worn silverware, would you? Years of use lessens their mark which is taken off by the date of sale, A. L. Greenway, 719½ S. Spring (underground), one's only regret is that his address wasn't known long before.

A pinch of salt in the coffee before serving adds to the flavor.

It isn't that you attempt to fool your guests and pretend that you made the ice cream when you didn't. However, there is a word on the subject: some are certain to say, "Well, you do make best ice cream! Would you mind telling me how? Then come and give us a lesson, we are sure to learn something from your dinner—whether the food is home-made or bought—its certainly give out a lot of pleasure—say right up and say,

you were buying my son's suit—it—Any deal with a yellow and white sign will supply ready with Hughes's ice cream and so he will in any flavor you are providing you order in advance.

That is advice well worth having.

Dry cleaning bills have been a tiresome expense, with the house lady in the family who white flannel shirts are frequently to be cleaned. There comes a time when such cleaning proves inadequate and then will you wish you had known about White King washing machine. In the first few weeks your woolen garments won't be a little care not to wash them is that's necessary and after all, nothing cleaning proves as satisfactory as water combined with the large box when ordering.

French poussoles are made by filling the ordinary poussole with jelly or jam—after which rolled up and dipped in powdered sugar.

Italian food of such delicious served at Mord's Grill, 10th and Main, one has blown the roof off the place. Many dozens of diners at really inexpensive a cafe will seek Mord's Grill where Mr. Mord is so particularly maintaining the fine reputation his caravansary has that he buys all food and supervises the cooking as well.

What shall I give "him" for Christmas, the "him" meaning my sweet heart brother or friend. A wicker smoking stand for \$5 finished in green or gold or mahogany from Gilt Edge Prince Reed Shop, 1910 South Figueroa, would be appreciated being a gift which will be useful for many years, because Prince's workmanship is excellent.

It's delicious and doesn't it take the "bestest" drink too. Yet at the same time Sunerush is wonderfully fine for ice cream and for dessert icing. It's the "bestest" because it has the really and truly taste of oranges which in it is put aren't they individual and that's what makes it different and out of the State in those want a taste of California? Sunerush is made specially for that are now available, ask druggist or grocer—it is sold out here at "Sunerush." Those who taste it love it. It's pure, you know, containing sugar and juice of citrus fruit.

People want a lot of reasons for visiting one firm or another, so that's not all that's necessary for the woman who knows when told that not are the dates sold by the Alman-American Date Co., 545 W. st., the biggest, finest and choicest she had tasted but have some beautiful sunburst fruits and all the other dates packed for holiday gifts, a selection of which shows how little discrimination we all will appreciate; their prices are reasonable as well.

When using a cake tin with removable bottom, run a thread under the cake and it will come out easily.

We know perfectly well that whitework in any part of house is like a bit of paradise, a constant source of annoyance. At such a trifling expense, enough of Frederick's Wedgwood White Embroidery will give "like" embroidery. When at your paint hardware dealer ask for a can for cut.

The fudge you wish to cool into cup cake tins. This has found most satisfactory.

It wouldn't spoil the otherwise appointments of your home if you had a piano, would you? Years of use leave mark which is taken off so easily by A. L. Greenway, 5 Spring (upstairs) that's only regret is that his address isn't known long before.

A pinch of salt in the coffee just serves adds to the flavor.

Isn't that you attempt to fool guests and pretend that you made the ice cream when you Hughes, but without saying a word to say, "Well, you do make ice cream." Well, tell me how? Then comes answer given with no small measure for any compliment paid dinner—whether the food was dinner—or bought—its certain give out in the place where I speak right up and say, "I tell you how, but I can tell you where you buy some just—Any dealer with a yellow sign will tell you with Hughes' ice cream he will in any flavor you providing you order in time. That is advice well-worth heed.

My cleaning bills have a tendency to run up to very large amounts, especially when there is a lady in the family whose fashions are sent from time to time to be cleaned. There is a time when such cleaning proves inadequate and will you wish you had known White King washing machine in granule form, which will wash woolen garments so well. A can not to mention that it is necessary, and after all no cleaning proves so satisfactory as water combined with the cleaning agent. Ask for large box when ordering. It's economical and convenient.

French poucals are made by adding the ordinary poucals to jelly or jam—after which it is rolled up and dipped in powdered sugar.

Indian food of such deliciousness is served at Mora's Grill, 107 Market st., one half block from the post office. Many dozens of diners are regulars in this place. Mr. Mora is so particular about maintaining the fine reputation of his caravansary that he always buys all food and supervises the cooking as well.

What shall I give him?" for Mora's, the "him" meaning husband, sweetheart, brother or friend, or wicker smoking chair or cushion in green or gold or mahogany from Gilmore Reed Shop, 1910 South Broadway, would be appreciated being a gift which will be for many years, because Gilmore's workmanship is ex-

Telephone Rate Hearing Again is Postponed

Hearing of the city's protest against the existing rates and service of the Southern California Telephone Company was postponed again yesterday when it was announced through the local office of the State Railroad Commission that the case, previously set for the 5th inst., had been rescheduled for the 18th inst.

Joined with the action of the city is the protest of a group of Los Angeles physicians, occupants of offices in the downtown section and users of an interconnecting trunk telephone system, who are asking for an adjustment of rates and reparation for excessive charges for services alleged to be unperformed.

Both cases were originally scheduled for hearing on October 24, last.

Just think—all of the fruit, nuts, raisins, flour and other tonics mentioned in the ingredients contained in a Mason J. Titus fruit cake, are California grown—so that in sending them away as gifts you are truly giving a California cake in every respect.

You know they make delicious plum pudding, when steamed for fifteen minutes, and served with hard or lemon sauce. Think how convenient to send away—what a difference—1½ lb. Attractively decorated tins carry

their precious loads over mountains and seas the distance makes no difference, because a Mason J. Titus Fruit Cake actually improves with age, and is enjoyed in the last crib.

Now these cakes are now

selling these cakes through their two "nests" at the Beach Shop (main floor) and 1276 So. Western Ave., near W. Pico, are their real homes—Visit any of them at your earliest convenience, for it is better to have a moral than to have a bad one.

Make your Christmas "gift box" typical of California by presenting in Mrs. Titus' fruit cake, the delicious home-made Satsuma jelly, fig jam, and Apricot butter. They should be ordered at once though (559801) is the phone number.

When not in use, the broom should be hung up in a rack with the bristles up so the weight does not rest on the straws.

A woman who showed her good sense which you may like to imitate and then "go and do likewise" is Mrs. Titus, who during what seems many beverages have been used, but found either injurious or unsatisfactory. Mother will invariably say: "Reminds me of the old days, father, when we had our quilting parties, and cedar oil was the oil of the evening." Dad's resolutions are of the barn dance and the glasses he consumed when left out of the quadrille. The cedar sort of made up for his loss of a partner of the evening, and when on down from the head of the ladder, he said to his wife, all admit there is nothing takes the place of the pure apple cider we can buy today in bottles or kegs providing we say "Jones" to the dealer. It is a name which stands for the best made cider known from coast to coast. The largest manufacturers of the best pure cider obtainable. Let's all get the cedar oil soon.

Sprinkle a few grapes-nuts, or any kind of cereal on ice cream just before you eat it. Make sure that the cereal is fresh and crisp though. This is an unusual variation of the so-called Sundae and is most delicious.

A water softener, bleacher, Bobrick's Cloudy Ammonia is unequalled. Just give it a trial and you will never be able to purchase it enough to your friends. Once introduced, many use. Many folks say they will never be without it again.

Considering the work it does and the satisfaction it gives, also remembering the work it does for Bobrick's Cloudy Ammonia does it not all the better.

When attaching a window shade—instead of using hammer and tacks to attach a window shade to its railing, try the more satisfactory method of using inch-wide adhesive tape.

The cost of a laundry is something to consider when you take into consideration the nuisance of steam penetrating throughout the house—lunchroom to be prepared—the waiting upon all wash-women require. Why suffer such annoyance when the Crown Laundry calls for your bundle, washes the clothes far more carefully and thoroughly than one can possibly do at home and delivers them beautifully ironed all ready to help in removing Persian cat hairs from clothing, as their hair is very hard to remove with a brush.

The giving of useful gifts each year is urged with greater persistency. Then why not a rug bought of W. S. Heaton, 1930 So. Figueroa, marvelous values and so inexpensive?

Refresh the bristles of your floor brush by making a strong solution of baking soda and water—then immerse the brush for several minutes. It will be as good as new after such a bath.

Fancy anyone keeping house without McDonald's Root Garden Chocolate—but in pulverized, partially sweetened form or the kind which is made in a cake. Why, one never knows when guests may drop in unexpectedly of evenings and it's lacking in real hospitality which we Westerners are as famed for as the Southerners, if you allow your callers to depart without serving something to drink and eat. The something to drink is hot chocolate and the easiest thing you could possibly prepare. No boiling—just mix with cream or milk and add boiling water. In one home at which I am a frequent visitor the children prepare it themselves whenever they want it and their good health speaks well for McDonald's Root Garden Chocolate.

You rarely hear a woman say when ordering butter "Give me any kind—it makes no difference." Certainly if she is so indifferent to the brand she has need to buy the L. A. Creamery Butter. It actually spoils you for every other brand probably because its taste is "sweet as a nut" due to the cream experts work it. Butter so treated is most economical to use and when served your family calls forth only the most complimentary remarks. All L. A. products do that, tho. We residents of many years are always more than delighted to recommend this creamy treat to new arrivals.

Meals can be made right at the table for breakfast; if you have an electric grill, and they "do" taste good—piping hot with butter and Glen Rose orange marmalade spread between. Of course, this just fits in "any place" to use Glen Rose. After you become a booster of this brand of creams and marmalade you put it in sandwiches, eat it with cottage cheese and find it adds greatly to the flavor of meats, be they cold or hot.

Many have experienced—up

To Fight White Plague
Miss Mary Farrar, volunteer Red Cross worker, helping J. Karnsky, letter carrier, load up with Christmas seals for 50,000 Angelines.

DECEMBER opened auspiciously yesterday for the postmen of Los Angeles for in addition to their regular mail, 50,000 appeals

to their chisel stamping boxes. All of the funds raised are used to stamp out and prevent tuberculosis, and the Los Angeles Tuberculosis Association is instrumental to the credit for the economic and efficient administration of outdoor relief.

The Los Angeles Tuberculosis Association carries on its seal sale throughout the month and by this means hopes to raise \$10,000 necessary to carry on the fight against "the great white plague" in Southern California during 1923.

The Acme Cleaners, whose thorough and reliable work needs no endorsements, are prepared to do the work. Pico 1480 is the number. Just give your order as soon as possible.

Cake filling—one cupful corn meal, one cupful flour, four teaspoons baking powder, three tablespoonsful sugar, one teaspoonful salt, one egg, one cupful milk, two tablespoonsful melted shortening, one egg. Mix and sift dry ingredients; add milk, shortening and beaten egg; beat well and pour into greased shallow pan. Bake in hot oven about twenty-five minutes.

No, fortunately, surprises never end, and when you hear that Long-the-Coffee-Man has exceptionally good tea—price 55¢ can a cup of tea taste better? Believe it, but finally try a little, then comes the unexpected pleasure and high quality become a customer of the L. A. Creamery.

A rubber sponge is an excellent thing to use in cleaning linens, hair, ironed clothes, etc. Moisten the sponge with water and squeeze almost dry before using. Such a sponge is of great help in removing Persian cat hairs from clothing, as their hair is very hard to remove with a brush.

The giving of useful gifts each year is urged with greater persistency. Then why not a rug bought of W. S. Heaton, 1930 So. Figueroa, marvelous values and so inexpensive?

Not just once in a while—but every day Vignolet's—the store in which you buy your clothes—impatience of steam penetrating throughout the house—lunchroom to be prepared—the waiting upon all wash-women require. Why suffer such annoyance when the Crown Laundry calls for your bundle, washes the clothes far more carefully and thoroughly than one can possibly do at home and delivers them beautifully ironed all ready to help in removing Persian cat hairs from clothing, as their hair is very hard to remove with a brush.

As soon as you remove the cake from the oven, set the pan directly on a cloth wrung out of hot water and the cake will not stick to the pan.

At Wm. Gibbs, 211 So. Main, Holland bulbs, seeds and plants can be bought for half what they would cost you elsewhere.

Say what you like, but when Arrowhead goes into a home and the family realize how different the taste is from the water in the faucet, that same family will almost go crazy if they don't drink it. Somehow there is a sort of sweet taste about Arrowhead, a something indescribable which almost tells you it is pure mountain water. The glass drink means more health, as it really helps every Los Angeles resident to keep plenty on hand. When giving a phone order call South 331.

While the gift boxes of former years, arranged by Mr. Goss and sold at the fountain of the Grand Central Public Market, have been considered beautiful, this year all records for artistic arrangement have been broken, resulting in an array of novelties and gifts typical of California for the season.

Just think, three days before Thanksgiving the Elite had to stop taking orders for the delivery of ice cream. This should prove how popular this exclusive catering establishment is and how delicious their ice cream are. But this is only one of the many things the Elite are famed for. Their dinner on Thanksgiving won many new patrons who will seek their beautiful dining-rooms often in the future, because of the superb food which they serve on all occasions (641 S. Flower is their address now.)

**CITY MANAGER
IS NOT NAMED**

Long Beach Officials Are
in No Hurry

Rumors of Resignations Now
Discredited

Recall Vote Canvass Takes
Place Monday

By a "Times" Staff Correspondent

LONG BEACH, Dec. 1.—Selection of a new City Manager to succeed Charles E. Hewes, whose dismissal was voted at a special election here recently, will not be made for several days, it was indicated yesterday by a group of San Francisco capitalists, has been sold to Adolph Ramich, according to an announcement made yesterday by A. C. Blumenthal, head of A. C. Blumenthal & Co.

Members of the Council and the Mayor declared today that the question of selecting a successor had been given no consideration as yet, and no applications for the position had been received.

The officials refused to comment on the report that the post would be tendered to Postmaster C. H. Windham or Mr. Windham also refused to make any statement relative to those reports.

Rumors that Mayor Buffum and several members of the Council would resign as a consequence of the recall of Hewes, whom they supported, were dispelled today. Statements were issued both by the Mayor and members of the Council that they would not quit.

"I don't think that a person would be loyal to the city if he resigned under such circumstances," Mayor Buffum said. It is the duty of the Council to stick by the job and get things in shape as quickly as possible. We owe that to the city and want the co-operation of the people. There are too many big problems to be solved, possibly, to set by and let things drift."

The recall vote will be canvassed by the Council Monday and the position of City Manager declared Tuesday. A recall could not be obtained in the Council, as two members are out of the city and a third recently resigned.

However, it was announced that C. H. Stanley, former Councilman, who recently became ill health, has consented to take the place vacated by Councilman Pillebury. His presence will make the necessary quorum and the Council can thus act officially when it convenes Monday.

Final payment for Mercantile Place, sold recently to a syndicate of San Francisco men, will be made between March 1 and March 15. Mr. Blumenthal said, and it is the duty of the Council to stick by the job and get things in shape as quickly as possible. We owe that to the city and want the co-operation of the people. There are too many big problems to be solved, possibly, to set by and let things drift."

Mr. Blumenthal said, and it is the duty of the Council to stick by the job and get things in shape as quickly as possible. We owe that to the city and want the co-operation of the people. There are too many big problems to be solved, possibly, to set by and let things drift."

The recall vote will be canvassed by the Council Monday and the position of City Manager declared Tuesday. A recall could not be obtained in the Council, as two members are out of the city and a third recently resigned.

However, it was announced that C. H. Stanley, former Councilman,

who recently became ill health,

has consented to take the place vacated by Councilman Pillebury.

His presence will make the necessary quorum and the Council can thus act officially when it convenes Monday.

Final payment for Mercantile Place, sold recently to a syndicate of San Francisco men, will be made between March 1 and March 15. Mr. Blumenthal said, and it is the duty of the Council to stick by the job and get things in shape as quickly as possible. We owe that to the city and want the co-operation of the people. There are too many big problems to be solved, possibly, to set by and let things drift."

TROJANS WILL REPRESENT WEST IN NEW YEAR'S GAME IS REPORT

SAN DIEGO TO FACE BEARCATS

Powerful Prep Elevens to Meet at Fullerton

Gardena and Bishop Clash on Coyotes' Field

Large Crowds Expected to Take in Struggles

Two prep grid games the main-sack of the day for the Southern California football championship, as scheduled to come off today and decide which eleven meets at Edward Field next Saturday for the title of the southern part of the state.

Santa Ana and San Diego, two of the strongest prep grid eleven in the south, tangle in what is considered the feature game on the Fullerton High tabular, while the other struggle finds "Tiny" Leonard's Gardena Berry Pickers invading the lair of the Bishop Coyotes in Los Angeles.

EVENLY MATCHED

Both games should be closely contested, according to all dope available, the elevens are evenly matched. As today's games will come off, the two schools all four games are keyed up to the hilt and will put everything they have into this afternoon's battles.

No reason whatever, several experts are making San Diego favorite to do the Santa Ana eleven, who have one of the best squads in the state.

San Diego proved that it has a powerful eleven by holding the U.S.C. and O.Y. freshmen teams to low scores, losing out to the Tiger boys by a point margin.

Santa Ana eleven, built up a dangerous squad, but it does not seem to come up to the Santa Ana eleven of last year, which won the California title by smothering the Coyotes behind the strong National freshman team to a 14-10 score.

TOUGH TEAM

Gardena has a tough, fighting eleven and should give the Edward Field eleven a hard time in the first battle. Leonard's team is composed of a bunch of players who never give up and scrap all the harder when other teams begin to quit. Duncan, fleet-footed center, is the star of the Poets.

Carroll, 28 to 4, leading a direct kick through the posts from the forty-yard line, Sheldon, at tackle, and Tiff, at center, are the two other Gardena top-notchers.

All of today's games are expected to be big crowds, though the threatening weather is bound to turn into a heavy rain.

BIG TEN CONVENE TO MAKE GRID SCHEDULE

INT'L. A. P. NIGHT WIRE:

CHICAGO, Dec. 1.—Schedule makers of the western conference gathered here today preliminary to meeting tomorrow to arrange football, base ball and track schedules for the 1923 campaign in "Big Ten" athletics.

Gridiron interest is centered in the meeting of the 1922 gridiron campaign and the future of the international games, Iowa has an unbroken string of wins against another gridiron, with Yale.

Chicago wants Iowa to repeat its 8-0-1 triumph over the Big Ten this season, to make another appearance in the Yale bowl.

Army and Yale will meet again in 1923

(EXCLUSIVE DISPATCH)

WEST POINT (N. Y.) Dec. 1.—Army will play Yale again next year. The game will be played in October in the bowl at New Haven. This is the only definitely arranged gridiron tussle yet decided on by the Army schedule makers.

Negotiations are under way which may bring the University of Middle West Conference champions here for a game with the Army in April.

LAST ROUND OF TOURNEY AT ANGELES

Tom Conrad Scheduled to Meet Frank McNally in Golf Finals

The final round of play in the first annual Fall Handicap golf tournament of the Angeles Vines Golf Club will be staged over the course of the club today and tomorrow, the semifinals having been played at various times during the past week when the showers permitted.

Tom Conrad and Frank McNally seem to be the best players who have put in appearance on the course, or at any rate the best in the first flight of the tourney. In the semi-finals Conrad defeated Davis 5 and 4 in a match which was all Conrad's. McNally on the other hand defeated G. G. Tregg in a match which was supposed to be a preconceived victory for the latter. It is expected that the final will be the winner of the first round will come in the heat, playing that has ever been seen; on the course.

In the second flight C. C. Richman defeated Gatlin 1 up on the nineteenth with the exception of one hole where he was 1 up. A. M. Carlson then defeated Howell 3 up and 1 in play, and not being satisfied with the two winners in the semi-final matches decided to fight out the final as well. Richman reported his playing of the semifinals as defeating Carlson 5 and 2 with another score of 51.

Dr. G. H. Hanna defeated Mann 2 and 1 in the third flight and T. G. Freitas defeated Stearns 5 to 4.
